CALIFORNIA EDUCATION CODE K-12 INDEX

Education Support Professionals (Classified)

Center for Organizing and Bargaining
Revised February 20, 2024

Center for Organizing and Bargaining

At the June 2006 State Council Meeting, the delegates voted to give our Educational Support Professionals (ESP) full membership in CTA. Since that time, classified employees have taken an active role in the union and are strong advocates for public education in California.

Several years ago, the NOD Department (now the Center for Organizing and Bargaining – C4OB) issued a California Education Code K-12 Index specifically for classified employees to assist members and staff in the field. We've recently updated the index again and hope this guide makes it easier for you to quickly find those sections of the Education Code that specifically pertain to our ESP members.

The index will also be available at www.cta-search.org.

See Suggestions/Options for Searching for Ed Code on the next page!

The following sections have been added to the 2025 Ed Code Index following new and/or revised legislation.

- Artificial Intelligence: ***33328.5*** – regarding the development of policy and best practices for artificial intelligence usage.
- Curriculum and Instructional Program, Educational Equity: ***200-270*** – regarding the right to participate fully in the educational process free from discrimination and harassment.
- Hazing: ***32051*** – regarding the development of an antihazing policy model.
- Post Secondary Education, Equity in Higher Education: **66294** – regarding the implementation of compliance and enforcement policies related to sexual harassment case management.
- Sex Discrimination, Sex Harassment: ***220.5*** – regarding the disclosure of information regarding a pupil's sexual orientation, gender identity, or gender expression to any other person without the pupil's consent; ***33546.2*** – regarding "sextortion;" **67382.1-67382.2** – regarding sexual harassment prevention on campus.

In addition to new sections, the following topics have been expanded upon.

- Discrimination, Employment: ***221.1***
- Facilities: ***17070.10-17079.30***, ***17672***, **101400-101460**
- Post Secondary Education, Personnel: **89500-89574**, **92612.2**
- Pupil, Rights and Responsibilities: ***49056***
- Safety: ***33355***, **67386**

Suggestions/options for searching for Ed Code:

1) **Check the California Legislative Information, a primary source of current California Law Codes and is updated regularly for public use: https://leginfo.legislature.ca.gov/faces/home.xhtml**

   Helpful tip: **Look at the Quick Code Search section towards the right section of the home page. In the Code drop-down menu select "EDC" (Educational Code) to narrow the search field. From there, you can either enter the code section you want to verify or keywords to search.**

2) **Go to the Resource Portal on CTA Search and use the Ed Code (https://ctasearch.org/Contents) search function. If you have more than one word (for instance "Basic Aid"), you may want to try using something like this in your search: *basic NEAR(5) aid*. This will search will find all instances where two words whenever they occur within five (5) words of one another. In this case, you would find two references to "Basic State Aid" that would not have been found by simply searching for "Basic Aid." The number in the parathesis can be changed to increase or reduce the number of words between search terms. For example, *NEAR(10)* increases the range to within ten words and *NEAR(3)* reduces it to within three words.**

3) **Use Google or another search engine, searching for "California Education Code" plus your topic. This is often a quick and easy solution.**

4) **Use this Ed Code Guide. You can look around for whatever you're looking for, or you can hit 'Control'-F and use this function to search the document for your keywords.**
